 MORRIS AND VICINITY.

Races this week.
 Don't try "bucking the tiger."
 The Senior is still absent on his vacation.
 Hop picking has already commenced in some yards.
 A pocketbook has been left on the counter in the Bank. Who's is it?
 Our thanks to James R. Morris for a bushel of very nice early apples.
 Aren't those long pipes just too nobby for anything! Dear, dear. Ta-ta.
 E. W. Lull has our thanks for a basket of very nice Red Astrachan eating apples.
 School commences Monday, Sept. 5th, and the Teacher's Class will be formed Sept. 12th.
 John-Wilcox is putting large new windows in his house, corner Broad and Grove sts. Also new blinds.
 W. Y. Clinton is making extensive repairs and improvements on his residence, corner Church and High streets.
 A. L. Sanderson's little Scotch dog Dick died in a fit last Sunday night. He had been one of the family about thirteen years.
 Milo Baldwin wishes to thank his neighbors for their kind assistance and sympathy during the sickness and death of his wife.
 Still the good work goes on—the bridge over Bailey Brook near the Church Burying Ground has been rebuilt as a stone arch bridge.
 Hop pickers are scarce around here, and we learn of some growers who find it almost impossible to get pickers enough to secure the crop.
 We have neglected to mention that Orrin Bemis is back home again. A phenomenal economical attack of the Canal Department was the cause.

A series of hops are to be given under the auspices of Active Hose Co., during hop picking, at Gardner's Hall. Music by Holmes & Mathewson's orchestra.
 Five innings of a game of ball last Saturday between some Otego and Gilbertsville men and the Red Stockings, resulted in a score of 8 to 24 in favor of the latter.
 We were favored with a most refreshing rain last Friday night, which was the more acceptable because of the dry and dusty weather of the previous two weeks.
 Look out for the pool-wheel gamblers. The proper authorities ought to promptly arrest and fine any individual who sets up any kind of "reeling machines" during the races.
 The parishioners and Sunday school of Zion church will hold a lawn festival on the Rectory grounds on Thursday of this week, from eleven to four o'clock. A cordial and general invitation is extended.
 John Ward is getting to be quite a lover and owner of thoro'bred stock. His latest additions are a fine Oxfordshire Down ram, and some Jersey stock. It pays to keep the stock on a farm as near perfection as possible.

The academies thro'out the State are issuing their annual circulars and soliciting students. Morris Union School and its Academic Department present many advantages which parents should consider when selecting a school for their children.
 The Convocation of the Susquehanna, consisting of the clergy and lay delegates from the counties of Delaware, Schobarie and Otego will meet at Gilbertsville on the evening of Tuesday, Sept. 6th, and at Zion church, Morris, on Wednesday, Sept. 7th. We hope to give an outline of exercises next week.
 Isaac Bowne, a former resident of our village, son-in-law of Ruggles Starr, and who has been living in Elmira for the past two years, died in that city one day last week. He had been sick a long time. The funeral services took place last Saturday at Mr. Starr's residence on Lake st., and his remains were buried in Hillington.
 We publish the list of premiums this week offered by the Butternut Valley Agricultural Society. There are several changes from last year. The classes of Graded stock have had a third premium added; grade bulls are now allowed to compete for premiums; there is no distinction between large and small breeds of swine; horses competing for the premiums offered to road horses must show a 4-minute gait; ladies' display of horsemanship has been thrown out, on account of a lack of interest in former years; on the first day will occur two trots for farm horses, double and single. The premiums this Society give on cattle and horses are larger by considerable than most town fairs or county fairs either; the premiums have been increased every year, while other Societies have reduced. The Fair will be held October 4th, 5th and 6th. Premium lists can be obtained free of the Secretary, D. C. Winton, Morris.

Last Saturday evening the M. E. parsonage in this village, was made the scene of a very pleasant surprise. About fifty of the friends and members of the church thought to make glad the heart of their pastor, Rev. L. B. Weeks, by giving him a social surprise. They were heartily welcomed by the pastor and his family, who were so completely taken by surprise that they were at a loss what to make out of the affair. The people were well laden with what makes life endurable, and refreshes the inner man, such as flour, sugar, tea, coffee, meat, butter and wood to the amount of \$12. Later in the evening the friends assembled together as closely as possible, with Mr. Weeks as the central figure, when, was presented to him a new well filled purse of about twenty shining dollars. After the presentation Mr. Weeks made appropriate remarks for the occasion, which showed that the gifts of the donors were appreciated. After an hour or more spent in a social visit, the friends began to speak a cheerful "Good night," and take their departure for home feeling that they had spent a very enjoyable evening.

THE CAMP-FIRE.—The Camp Fire given by Kidder Post last Friday evening, was a success. The half was well-filled and a first-rate time was enjoyed. The Morris band furnished the music. The first thing on the program was the address by Hon. L. Coe Young; it was an interesting talk and just suitable to the occasion. Atson Thurston then recited the poem, "Fifty Miles an Hour," (relative to Mrs. Garfield's recent ride from Long Branch to Washington), and it was received with applause. Then came the supper—army rations with a slight improvement—which was enlivened with songs, anecdotes, and reminiscences of army life, by the veterans. D. C. Winton was made toast-master and the following persons responded to the toasts offered, in an able and eloquent manner: Rev. J. D. Bloodgood, Commander of Gilbertsville Post, responded to the toast, "The American Soldier;" Hon. N. Bridges, "The Stars and Stripes;" Hon. L. Coe Young, "The Grand Army of the Republic;" Mr. A. S. Avery, "The Soldiers' Monument." A large delegation was present from Musson Post of Gilbertsville. We trust the success of this Camp Fire will be followed up, and others be held, as they will doubtless be better attended as our people get acquainted with them.

PERSONAL MENTION.
 Mrs. G. S. T. Alexander and daughter, of Carbondale, are at the Morris House.
 Lou. Pearsall has gone to Gloversville, and intends learning the glove business.
 Miss Juliana Whitcomb is spending a few weeks in Oxford and other parts of Chenango county.
 Dr. Fox came to Morris and commenced the practice of medicine forty-three years ago yesterday.
 Mrs. Hobart, of Cincinnati, and her mother, Mrs. Braucroft, have been visiting friends in Morris the past week.
 C. L. Whitcomb, wife and son Henry, and Salina Whitcomb and Grace visited friends in Guilford and Oxford last week.
 Miss Addie Montgomery, of Rochester, has been visiting Miss Ada Laurence the past two weeks. They were fellow-students at the Binghamton College.
 We met Rev. Willis Clark now of Butternut, on our street last Saturday, and we were pleased to hear him say he was regaining his health once more.
 Mr. and Mrs. Robert White, of Burlington; Mr. Lester Rose, wife and child, of Rossville, Kansas; and Mrs. J. C. Shelland and daughter, of Wyoming, Pa., were guests of Rev. and Mrs. Daniels last week.

Rev. and Mrs. Daniels and Rev. L. B. Weeks and family attend the Sidney Grove meeting this week. In consequence of which there will be no preaching in the M. E. church next Sunday.
 Dr. E. L. Pattengill, a young and popular physician living at Hancock, Delaware co., committed suicide, by running a stiletto thro' his throat, Aug. 16. He was a relative of Dea. S. C. Draper, of our village.

OTSEGO COUNTY.
 There are 325 men employed in the railroad shops at Oneonta.
 The Sidney Camp Meeting commences this week Wednesday.
 Halsey Dibble, of Unadilla, recently killed two cranes at one shot.
 Twenty-five men receive steady employment at the Unadilla Machine Works, and more are wanted.
 The Scheney Agricultural Society offers a premium of \$2 for the best calf, and \$1 for the handsomest baby.
 W. H. Mallory, of Worcester, gathered 1,000 pounds of honey in one day recently. He has nearly 500 swarms of bees.
 Stock of the Albany and Susquehanna Co., sold in the New York market last week Monday for 129. This exceeds by six cents any former quotations.
 The directors of the Oneonta Water Works have decided to proceed with the works at once. It is expected to push the work right along after Sept. 1st.
 According to the estimates of Prof. Bull Oneonta has gained 1,000 in population during the past year, and in 1890 will be a city of 10,000 inhabitants.
 Orville Coats, a graduate of Hamilton Theological Seminary, was ordained in the Cassville Baptist church, Aug. 19. He is a son of Solomon Coats, of Cherry Valley.
 The examination for scholarships in Cornell University, took place at Portlandville, Aug. 15th. Leon Hubbell received the appointment for the 1st district, and Wilber E. Rapine, of Plainfield, for the 2d district.
 We are glad to know that there is not a piece of land in Otego county subject to sale by the Controller for State taxes. There are several pieces of land in Delaware and Chenango, principally in Midland railroad towns.
 Abram Niver, of Johnstown, recently died, and left \$1,000 to Hartwick Seminary. We are pleased to learn that the endowment fund of this Seminary is being rapidly enlarged. During the coming school year we expect this institution will become a college.
 Gen. Lionel A. Sheldon and wife have been spending some time at East Worcester. Mr. Sheldon is Governor of New Mexico, having been appointed to that office by President Garfield. He was born in the town of Worcester, and removed to Ohio when a mere lad, this being his first visit to Worcester since his childhood.
 A man named Samuel Hair sold liquor at Fort Plain, without license and was arrested and imprisoned. He obtained bail and fled to Canada. There he changed his name to George Howard. Last April he came to Milford with his family, and hired out to work. One day recently the deputy marshal of Buffalo arrived in pursuit of the alias George Howard, whom he arrested, handcuffed and took to Buffalo.

Privileges for victualing, and selling drinks fruits, nuts, candies, cigars, etc., during the Fair days of the Butternut Valley Agricultural Society at Morris, Oct. 4th, 5th and 6th, will be sold at auction at Gardner's hotel on Saturday, Sept. 3d, at 1 P. M.
 D. C. WINTON, Sec'y.

TO EMPLOYERS.—The Women's National Christian Temperance Union request that all employers will consider the advantage arising from making some other day in the week than Saturday, pay day. Those who have tried it find that Monday or Wednesday are preferable to Saturday, as the money is expended for family needs before the liquor seller can get it on Saturday night or Sunday. Employers, please try the experiment, and see if your workmen are not in a better condition on Monday. A statement of results will be gladly received by
 Mrs. P. STRYKER,
 SARATOGA SPRINGS, N. Y.
 Com. for New-York State.

WICKED FOR CLERGYMEN.—Rev. Washington, D. C., writes: "I believe it to be all wrong and even wicked for clergymen or other public men to be led into giving testimonials to quack doctors or vile stuffs called medicines, but when a really meritorious article made of valuable remedies known to all, that all physicians use and trust in daily, we should freely commend it. I therefore cheerfully and heartily commend Hop Bitters for the good they have done me and my friends, firmly believing they have no equal for family use. I will not be without them."
 —New York Baptist Weekly.

Harper's Magazine for September is an unusually attractive and entertaining Number—an argosy richly laden with the treasures of Summerland. Most readers will be surprised by the startling revelations made in a paper by E. S. Atwater, entitled "The Wheat Fields of the Northwest." According to this writer's estimate, Lord Beaconsfield was not an untrustworthy prophet when, in 1870, he predicted that supremacy as a grain-growing country would soon be attained by Canada. The statements made in Mr. Atwater's article will command universal attention, from the importance of the subject.

Intelligence having been received by Capt. Cooper, of the revenue cutter Corwin, now in the Arctic region, of the discovery of the wrecks of whalers by the natives, a sledge party was at once sent out, in May last, and after traveling a hundred miles they fell in with a party of natives who had in their possession articles taken from the wreck of a whaler, which is believed to have been the "Frigate." The natives said they found the cabin of the vessel full of water, but the rest gone, and four dead bodies were found in her. From the appearance of the bodies it was judged that the vessel was wrecked as far back as 1870. It is probable that the other whalers have met the same fate, as also the Jeannette sent in search of them.

BALLOU'S MONTHLY ILLUSTRATED MAGAZINE.—The September number of the handsomely illustrated and popular Ballou's Magazine is issued, and is so full of interesting matter that we hardly know which article to mention first. There is an illustrated review of Chinese life, an illustrated statement of fall fashions, some choice poetry, ten or twelve stories, and a large lot of miscellaneous matter, which alone is worth the price of the magazine. This is a magazine that should be read by a million people; for it is got up for the people, and not for a clique.—Published by Thomas & Talbot, 23 Hester Street, Boston, Mass., at only \$1.50 per annum, postpaid, and for sale at all the news depots in the country at 15 cents a copy. Speak to your neighbors about it, and get up some clubs this fall. The CHRONICLE and this valuable magazine will be furnished one year postpaid for \$2.25.

The steamer Plymouth Rock, on her way to Long Branch with 1,000 passengers, on Wednesday last, burst her steam flue, knocking open the door of the engine room, from which an immense volume of steam escaped. The passengers were panic stricken. For half an hour there was a scene of terrible confusion. The panic finally subsided and the steamer was towed back to the city.—The passengers were transferred to another vessel. No one was seriously hurt. In the midst of the panic, passengers and crew were beside themselves with fear. They not only acted wildly and irrationally, but not a few revealed the most brutal selfishness. Strong men not only refused to take any risks themselves to assist helpless women, but not a few forcibly tore from the hands and bodies of women the life-preservers they had secured for themselves. In one case a selfish brute refused to surrender any one of four he had seized for himself! And some of these men held decent positions in society and would consider themselves insulted if they were not recognized as possessed of all the amenities and courtesies of gentlemanly humanity.

At the session of the medical congress at London, Tuesday last, Prof. Pasteur of Paris delivered an address upon vaccination among animals. He stated that France loses annually by splenic fever, animals to the value of \$4,000,000. The professor determined to give a public demonstration of what could be done to stay these ravages by recourse to vaccination. Fifty sheep were assigned to him, of which he vaccinated twenty-five. Two weeks after all were inoculated with the most virulent poison of the disease. The twenty-five sheep that had been vaccinated resisted infection; the other twenty-five succumbed to the splenic fever. Prof. Pasteur has since been overrun by applications from farmers for the vaccine virus, and in the departments surrounding Paris more than 20,000 sheep and large numbers of cattle and horses have been treated. Prof. Pasteur well deserves the praise bestowed upon him in behalf of the congress by Sir William Paget of having done for the lower animals what Jenner did for man.

The Turkish bondholders in London have been holding a meeting to count up their losses; gains they have none. Within a period of about twenty-one years Turkey has run up a debt of \$50,000,000; and having failed to pay interest as well as principal, this debt now amounts to more than \$1,200,000,000. Where the creditors are to get their money from nobody knows, though a good many Englishmen care.

The number of passengers carried by the Brooklyn and New York ferry boats in the course of the year is said to equal the population of the whole United States, fifty millions.

Professor Belle claims that he has succeeded in inventing a machine that will "locate a bullet in the human body." He needn't think that's anything new. Almost every man in Denver tries such an instrument.

Jink's parents live up in Buffalo and have to send him money every month to keep his landlord from evicting him. Jinks, in writing back his gratitude, always begins, "My Dear Pay-rents."

Piles! Piles! Piles!
 A Sure Cure Found at Last. No One Need Suffer.

A sure cure for the Blind, Bleeding, Itching and Ulcerated Piles has been discovered by Dr. Williams (an Indian remedy), called Dr. Williams' Indian Pile Ointment. A single box has cured the worst chronic cases of 25 and 30 years' standing. No one need suffer five minutes after applying this wonderful soothing medicine. Lotion, Instruments and Electrodes do more harm than good. Williams' Ointment absorbs the tumors, always the intense itching (particularly at night after getting warm in bed), acts as a "poultice"; gives instant and painless relief, and is prepared only for Piles, itching of the private parts, and nothing else.
 Read what the Hon. J. M. Coffinberry, of Cleveland, says about Dr. Williams' Indian Pile Ointment: "I have used scores of pills, cures, and it all night after getting warm in bed, acts as a 'poultice'; gives instant and painless relief, and is prepared only for Piles, itching of the private parts, and nothing else."

TERRIBLE ACCIDENT
 Necessitating a Surgical Operation—Saving Her Life—Attempt to Take Pair of Shears from Her Child—Parents be careful.

Domestic accidents are common to women, and some of them are very serious. Mrs. Warner, of South Rondout, Ulster co., N.Y., some weeks ago attempted to take from her child a pair of shears with which it was playing. A slight struggle ensued, in which the point of the shears entered Mrs. Warner's left eye, entirely destroying the sight. Her family physician did what he could, but intensely painful inflammation arose, which, by sympathy, threatened the loss of the other eye. Total blindness to a woman having the care of a household is an irretrievable calamity. In this strait Mrs. W. applied to the well-known and skillful surgeon, Dr. David Kennedy, of Rondout, N. Y., who removed the injured eye by a very successful operation, setting aside all danger of further harm to the sight of the other eye. But owing to pain and mental distress, her system needed a tonic and restorative medicine. To do this work the Doctor prescribed "Kennedy's Favorite Remedy," which sustained its reputation and laid a sure foundation of health. Dr. Kennedy's Favorite Remedy removes all impurities from the blood, regulates the Liver and Kidneys. Cures Constipation and all diseases and weaknesses peculiar to Females. It is for sale by all our druggists at ONE DOLLAR a bottle. Sept. 14.
